

COLORADO WATER TRUST

2022 REQUEST FOR WATER PROCESS TIMELINE

January 30, 2022 – Launch of Request for Water Process

February – June 2022 – Webinars/Outreach, exact dates and times will be posted on the Water Trust website

June 30, 2022 – **Deadline for submitting preliminary water right offers to Colorado Water Trust for review**

July through September 2022 – Confidential initial water right investigations, assessment of potential streamflow benefits, identification of transaction options.

By September 30, 2022 – A Water Trust staff member will contact water right owners to discuss available transaction opportunities.

October 2022 – 2023+ – Each instream flow or flow restoration transaction is unique and will have different legal and technical requirements, and different approval timelines. The Colorado Water Trust will coordinate with individual water right owners and CWCB to develop an appropriate timeline for completing the requirements for each transaction.
